

Name _____ Date _____ Pages _____ to _____

Title of Book _____

Directions: Complete the storyboard using the events from your book that you read about today. Each panel should include a picture of what happened and a caption explaining it in detail. Use multiple complete sentences. The order of the story must make sense...the second event must follow the first event in a logical way. You will lose points if you string together random scenes that don't seem to follow any order of events.
